

## Login

To login, you simply follow the **Login** link from the Data Access System home page. You will be required to enter your username and password.

If you only enter one credential, you will receive an error message:

The page at http://localhost:8084 says:

 Your login could not be processed because:  
The Password field is empty.

If you enter an incorrect username and password combination, then you will receive an error message, and also be asked whether you want the password to be sent to the registered e-mail address for a specific account, in case you have lost it:

# Internal User Access - The Data Access Project

**NEWS:** Note new download procedures for internal users.

From this page, you can:

- Search for variables of interest
- Add variables of interest to your shopping basket
- Checkout and download data files that are in your shopping basket
- Download data files that have been approved as part of an access request
- Review your previous shopping baskets
- View recommended shopping baskets provided by other users
- If you are a registered reviewer, review your assigned projects
- Update your registration details
- Change your password
- Securely logout from the NSHD system
