

Research Proposal

A new research proposal can be created by clicking on the link at the end of the variable listing in the shopping basket or by clicking the **Research Proposal** function from the menu.

Applicants must answer seven questions relating to the applicants, project title, funding and ethical approval, scientific rationale and justification (especially where access to depletable biological samples is required), as well as a project outline. Examples are shown below.

Level 2 Access - Project Proposal

This form allows you to submit a research proposal for Level 3 access. You may also upload any files containing any associated documents on the *next* page.

1. Applicants

Co-applicant 1	Joe Bloggs
Co-applicant 2	
Co-applicant 3	
NSHD Collaborator	Andrew Wong 

2. Project title

(no more than 120 characters with spaces):

*

Start date (YYYY-MM-DD): *

End date (YYYY-MM-DD): *

3. Funding

Has the project been or will it be peer reviewed? 

If Yes, by what organisation?

If No, where has funding been sought?

What is the deadline for application to the funder?

Please note that applications for funding must be reviewed PRIOR to submission to a funding body and should be received AT LEAST two weeks before the deadline for submission

4. Justification

Please state below the rationale for using NSHD data for this study, including consideration of other study methods considered (e.g. case-control): *

The rationale for this study is the rise in workplace stress in Britain since the 1960's, and the suggestion that early life stress is associated with cardiovascular disease in middle age.

5. Ethical approval *

Does the study have ethical approval from a recognised Institutional Review Board/Ethics Committee?

Y

If Yes, please submit a copy of the approval.

If No, please specify arrangements for obtaining appropriate approvals:

Please find attached a scanned copy of the ethical approval from London MREC.

6. Scientific outline *

Please provide a 1-2 page outline of your proposal, highlighting the specific requirements of the project for the NSHD data specified above. Please detail the questionnaire and derived data variables which are requested/required for this proposal & give full details in your scientific outline.

The project will require access to the variables requested, as well as associated data from the British Heart Foundation.

....

7. Project outline *

Please provide a 1-2 page outline of your proposal, highlighting the specific requirements of the project for the NSHD data specified above. Please detail the questionnaire and derived data variables which are requested/required for this proposal & give full details in your scientific outline.

2009

* Data gathered

2010

* Data analysis performed

2011

Once the application has been submitted, applicants may upload one or more documents associated with the project, such as ethical applications or published research papers.

Level 2 Access - Submit Research Proposal

Proposal submitted. Your reference number is abd5k78b31w6
