

Shopping Basket

Once variables have been added to the shopping basket, using the search results, the contents of the basket can be reviewed by using the **Basket** function from the menu. An example is shown below. Variables may be removed from the basket by clicking the **x** next to each variable name. Note that SERNO (serial number), SEX and INF are added automatically.

Level 2 Access - Shopping Basket

Variable	Remove?
SERNO	X
SEX	X
INF	X
